Bryant, per our discussion this afternoon, attached is the Lard Oil Soil Sampling and Analysis Plan, dated September 8, 2016, and the LDEQ workplan approval letter, dated September 15, 2016, for the referenced facility. PPM plans on starting the soil sample collection activities at the residential properties on Tuesday, September 20, 2016. Additionally, attached is the update Cleanup Plan activities spreadsheet with completed activities through Thursday, September 15, 2016. If you or your team have any questions or need additional information, please call or email. I hope you have a great weekend, Tim.
